

Technological Enhancements to use with

WORD INTELLIGENCE™

Extra Practice Activities

Interactive practice activities accessible ONLY from the Student Resources page at www.wordintelligence.net

Low Stress, Fun Activities for Students

- May be accessed in class or at home from computers, iPads or other tablets, or smart phones
- No limit to number of times to repeat activities for additional practice or to improve scores
- Fun and low stress activities, not intended for grading
- Designed to be used after the introduction of new words in Lessons 1, 2, 5, and 6

Flexible Options for Use In or Out of Classroom!

- “Do Now” activities at the start of class to review the prior day’s words
- End of class activities to check for understanding
- Home study, especially to help students study for the unit test
- Rotate students through computer activities during class time during Review Units 5, 9, and 13
- May be projected on screens for whole-class activity while students respond on white boards or smart devices
- Consider using these with smart phones on a BYOD basis!

Online Activities Include

- 2 separate practice activities for each list of target words
- 10 words per activity in Units 2–4, 12 words per activity in Units 6–8, 15 words per activity in Units 10–12
- A variety of engaging activity formats such as matching, True/False, Word Bank
- 3 to 9 additional usages/exposures to each target word
- NEW activities— not online versions of the Student Notebook
- Challenging and/or high-frequency words enhanced with multiple usage examples
- Prior unit words used for added exposure
